

Scrapie Eradication Sub-Grant Application
[Please print clearly or type]

APPLICATION MUST BE RECEIVED BY AGF BY MIDNIGHT, FEBRUARY 15, 2018

Association		Number of Members
Address		Phone
City	Email	
State	Zip Code	Website
Contact Name	Phone	Email
Back-up Contact	Phone	Email

Outline for Use of Grant Funds: The activities funded under this grant can either be part of a larger seminar with presentations on other topics, or a seminar specifically about Scrapie and Q Fever.
 The Scrapie Eradication Education Power Point presentation and the separate Q Fever Power Point presentation must be either used as a presentation during a seminar or as a self contained slide show in a public area that attendees can watch at their convenience.

AGF will provide flash drives containing information on Scrapie, Q Fever and other resources to distribute to adult (age 16 and up) attendees. If you anticipate more attendees than the maximum of 50, you can use part of your grant award to cover the discounted cost of extras.

The grant is to be used for speaker and travel cost for a knowledgeable expert to talk about scrapie and Q Fever, costs for handouts not provided by AGF, and any other expenses directly associated with providing this seminar, including the provision of simple refreshments. 25% of the grant can be used for the Q Fever portion of the seminar.

Plan for Educational Presentations (attach separate page if more space needed)

Do you want planning and/or outreach assistance from AGF? Yes No [this is provided at no cost to you]

By signing this application you acknowledge and agree that these funds are to be used exclusively for education about the scrapie program and also for education about Q-Fever prior to October 1, 2018. You also agree to complete the Seminar Report and return to AGF within 30 days of your activities, and to allow AGF to place information about your associations' educational efforts on the AGF website and facebook pages.
