

Randy Dusek

For Small Ruminant Vaccine Development Roundtable Meeting - January 21, 2020

Barbervax:

I visited at length with Dale Wies at Texas vet labs. He thinks that since this vaccine is a biologic and there are no chemicals or environmental impacts that we should apply for an import permit with USDA. I

I have been in contact with Dr. David Smith of the Moredun Institute who invented the vaccine. His comments are in a separate document.
