

# Sheep, Goat, and Cervid Medicine, 3rd Edition

Authors: David Pugh N. (Nickie) Baird Misty Edmondson and Thomas Passler

The 3<sup>rd</sup> edition contains practical answers on the care of sheep, goats, *and* cervids. It covers the latest advances in the field, including diseases and medical treatment, surgery, pain management, theriogenology, and nutrition. This comprehensive reference includes disease chapters on pathogenesis, clinical signs, diagnosis, treatment and prevention, and is ideal for veterinarians and also for owners of sheep and goats.

**Coverage of both surgery and medicine in each body systems chapter** makes it easier to choose between treatment options for specific disorders.

**Illustrated surgical procedures** demonstrate the steps to follow in performing medical and reproductive surgery.

**Appendixes include veterinary feed directives**, offer convenient access to information on drugs and drug dosages, fluid therapy, and normal values and conversions.

**Comprehensive *Feeding and Nutrition* chapter** covers diet evaluation, method of balancing rations, total parenteral nutrition, and examples of nutritious diets.

**Explanation of the differences in normal behavior between sheep and goats** shows how they are not the same, and require different methods of treatment. **The book is available at Elsevier or Amazon.**

## Table of Contents

Physical Examination: Handling & Restraint of Sheep, Goats and Cervids

Feeding and Nutrition

Oral-Esophageal Diseases

Parasitology

Diseases of the Gastrointestinal System

Diseases of the Respiratory System

Theriogenology of Sheep and Goats

Diseases of the Endocrine System

Diseases of the Integumentary System

Diseases of the Musculoskeletal System

Diseases of the Urinary System

Diseases of the Neurologic System

Diseases of the Eye

Diseases of the Mammary Gland

Diseases of the Hematologic, Immunologic, and Lymphatic Systems (Multisystem Diseases)

Diseases of the Cardiovascular System

Toxicology

Anesthesia and Pain Management

Flock Health

Field Necropsy and Diagnostic Tests

Appendix I: Commonly Used Drugs and Veterinary Feed Directives in Sheep, Goats and Cervids

Appendix II: Practical Fluid Therapy

Appendix III: Normal Values and Conversions
